PROFESSIONAL SUMMARY

Computer Engineering student with a completed Diploma in Computer Engineering and hands-on academic and project experience across software development, networking, databases, embedded systems and artificial intelligence. Currently developing practical solutions through university projects and the CAPACITI Demand Academy. Interested in graduate, internship and entry-level opportunities where I can contribute, learn and grow across software, IT infrastructure, networking and intelligent systems.

TECHNICAL SKILLS

- **Software & Development:** Python, Java, JavaScript, Node.js, HTML, CSS, Backend Development
- **Networks & Systems:** TCP/IP, Routing & Switching, Cisco Networking, Linux, Network Troubleshooting
- **AI & Data:** Artificial Intelligence, Machine Learning Fundamentals, Generative AI, Prompt Engineering, Signal Processing
- **Databases & Engineering:** MySQL, MongoDB, Database Design, ESP32, Arduino, Embedded Systems, MATLAB, Git/GitHub

PROFESSIONAL DEVELOPMENT

Demand Academy Participant | CAPACITI | Cape Town **2026 - Present**

- Participating in an intensive technology development programme focused on artificial intelligence, machine learning, software development and practical project work.
- Completed learning modules and certifications covering AI fundamentals, generative AI, Python for data science, prompt engineering and machine learning concepts.
- Collaborating on bootcamp projects and building a professional portfolio to showcase technical growth and project experience.

SELECTED PROJECTS

PromptCraft AI - AI Content Generator & Prompt Library

CAPACITI Demand Academy — Individual Project | Individual Developer

An AI-powered content generation platform developed individually as part of the CAPACITI Demand Academy programme. Combines a structured prompt library with interactive generation workflows.

Varsity Path - Digital Varsity Guidance Experience

CAPACITI Demand Academy — Group Project | Researcher & Backend/Data Handling Contributor

A collaborative CAPACITI Demand Academy project supporting students through a digital varsity guidance experience. Contributed as researcher and supported the team with data handling and backend-related work.

RoadReady Traffic Services

CAPACITI Demand Academy — Collaborative Project | Project Team Member / Developer

Collaborative software project focused on digital traffic service requests and related operational workflows.

RoadReady Insights

CAPACITI Demand Academy — Collaborative Project | Project Team Member / Developer

Interactive platform for sharing traffic service experiences and insights.

InfraTrack System

University Academic Group Project | Project Team Member / Developer

A full-stack ticket and infrastructure maintenance management system modelled around the City of Johannesburg Public Works Department workflow (academic prototype).

EDUCATION

Bachelor of Engineering Technology in Computer Engineering

Cape Peninsula University of Technology (CPUT) | 2025 - 2026 (Currently Completing)

Diploma in Computer Engineering

Cape Peninsula University of Technology (CPUT) | 2020 - 2024 (Completed)

SELECTED CERTIFICATIONS

- Artificial Intelligence Bootcamp (AI) - CAPACITI / Coursera
- Google AI Essentials Specialization - Google
- Machine Learning: Regression and Classification - DeepLearning.AI
- Generative AI with Large Language Models - DeepLearning.AI / AWS
- Python for Data Science, AI & Development - IBM
- Introduction to Artificial Intelligence (AI) - IBM
- Additional CAPACITI learning: AI For Everyone, Prompt Engineering, Responsible AI and AI productivity courses
